

Scope

The third "International Conference on Acoustics and Vibration" *ICAV'2020* will be held at Hammamet in Tunisia from 16th to 18st March 2020. The Tunisian Association of Industrial Acoustics and Vibration (ATAVI) is organising this conference and is pleased to invite scientists and engineers to attend this scientific event.

ICAV'2020 aims to collect the broadest range of high-level contributions covering theoretical and practical case studies. The Technical Program includes many Structured and Regular Sessions focusing on different fields of acoustics and vibration organised in 18 macro-topics.

Program

During three days, the conference will include plenary sessions, special sessions, oral and poster presentations. Accepted papers and posters will be published in the conference proceedings.

Topics

1. Structural Acoustics and Vibration
2. Aeroacoustics
3. Noise Source Identification
4. Vibration Field Measurements and Force Identification
5. Flow Induced Vibrations and Noise
6. Building Acoustics and Seism
7. PDEs of Multiphysic Dynamic Systems
8. Smart Materials, Smart Structures and Metacomposites
9. Dynamics and Engines Control
10. Mecatronics
11. Computational Vibro-acoustics / Numerical Technics
12. Industrial and Environnemental Acoustics
13. Fault Diagnosis and Prognosis
14. Fluid- Structure Interaction
15. Robust Design
16. Friction Noise
17. Smart Monitoring
18. Maintenance 4.0
